CHEMICAL & METALLURGICAL ENGINEERING

HENRY M. BATTERS
Market Editor
R. S. McBrids, Washington
Paul D. V. Manning, South Pasadena, Calif,
Assistant Editors

H. C. PARMELEE, Editor

Chemical & Metallurgical Engineering is the successor to Metallurgical & Chemical Engineering, which, in turn was a consolidation of Electrochemical & Metallurgical Industry and Iron & Steel Magazine. The magazine was originally founded as Electrochemical Industry.

McGraw-Hill Publishing Company, Inc., New York City

Volume XXXIII

From January 1 to December 31, 1926

GENERAL ALPHABETICAL INDEX

- Pa	ges	Alcohol, continued:		American Institute of Chemical Engineers	, con
January 1 to	1 72	Market review, 1925	59	tinued:	
March 137 to	136		774	Inspect Southern plants	70
April 201 to		Production and distribution 1923, 1924 and 1925	127	Report of Atlanta-Birmingham meet-	100
April 201 t May 265 t June 329 t July 393 t August 457 t September 521 t October 585 t November 657 tc December 721 tc	328	Synthetic production of, discussed	737	ing	733
June	392				398
August 457 to	520	Alcohol-ether plant in Cuba. Humboldt	569 333		
September 521 to	584	Aldehyde condensation products (S.)	695	American Inst. of Chemists, William Blum first medalist American Institute of Mining and Metallurgical Engineers, anti-knock motor fuels discussed at symposium	288
October 585 to	656	Algae, chemical from (S.)	431	allurgical Engineers anti-knock	
December 791 to	784	Alkall, caustic, pure salt as a byproduct	746	motor fuels discussed at sympo	-
	, , , ,	of. Angel	, 740	American Iron and Steel Institute, meet	160
Parallel Spanners and Control of the		caustic soda. Taylor	299	ing in New York	70
